

io

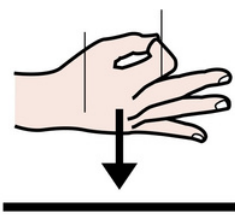

vado

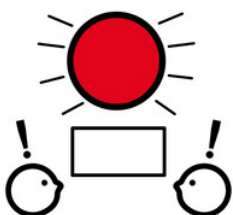

dal dottore

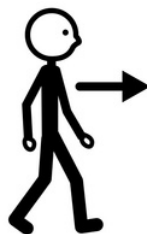

è

importante

andare

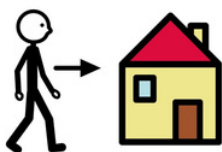

dal dottore

per farsi visitare

quando arrivo

dal dottore

devo aspettare

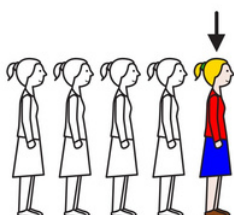

il mio

turno

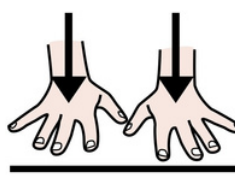

prima

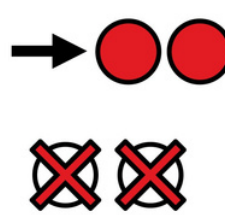

di me

ci sono

altri

bambini

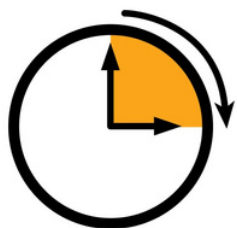

che il dottore

deve visitare

mentre

aspetto

posso giocare

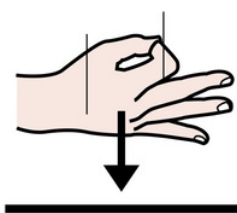

o

chiacchierare

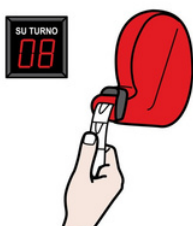

è

il mio

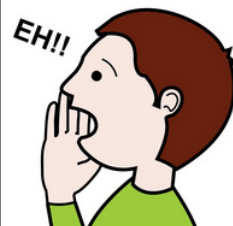

turno

il dottore

chiama

il mio

nome

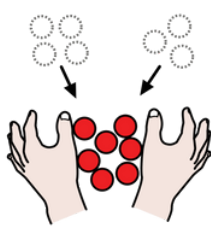

posso entrare

nello studio

insieme

a mamma

o

a papà

il dottore

mi

visita

mi

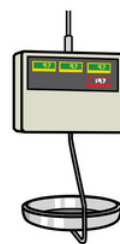

chiede

di salire

sulla bilancia

mi

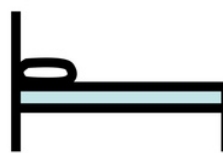

chiede

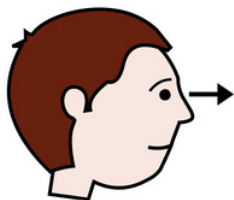

di sedermi

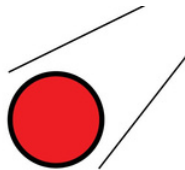

sul lettino

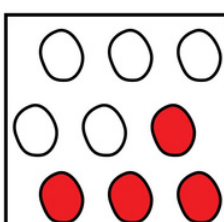

guarda

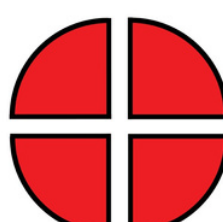

da vicino

alcune

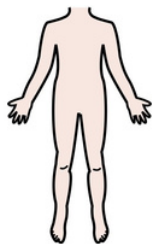

parti

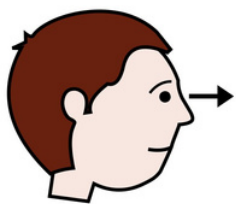

del mio

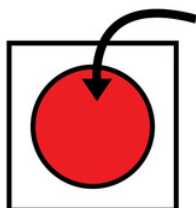

corpo

guarda

dentro

le mie

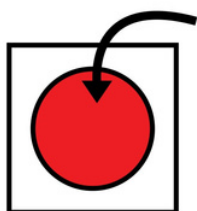

orecchie

e

dentro

la mia

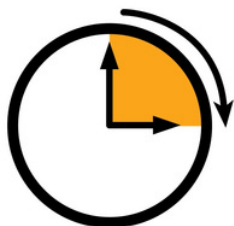

bocca

devo stare fermo

mentre

il dottore

mi

visita

il dottore

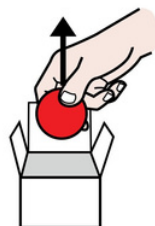

mi

chiede

di togliere

la maglietta

e

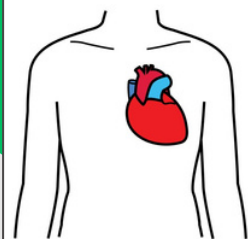

controlla

il mio

cuore

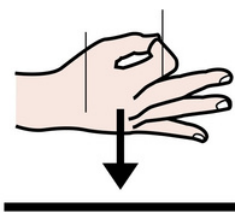

con lo stetoscopio

lo stetoscopio

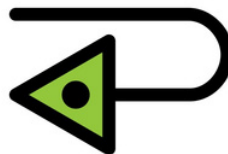

è

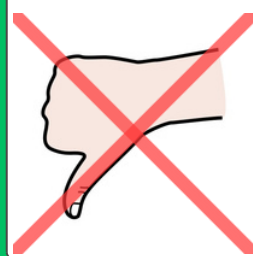

freddo

ma

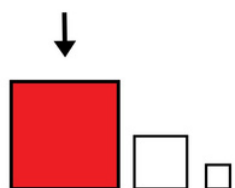

non fa male

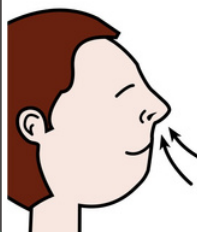

devo fare

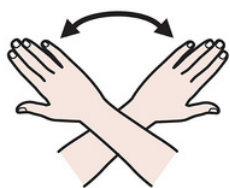

dei grandi

respiri

finita

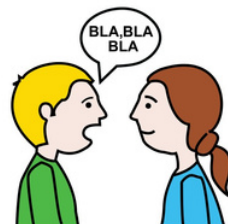

la visita

il dottore

parla

con mamma

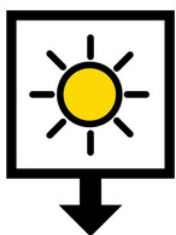

o

papà

adesso

posso andare

a casa
