

La linea del tempo

Questa attività aiuta i nostri bambini e ragazzi a comprendere meglio un concetto complesso e astratto; quello dello scorrere del tempo.

Dopo una breve spiegazione trovi la linea del tempo con “ieri”, “oggi” e “domani”, organizzata per colori, che puoi plastificare ed attaccare in classe o a casa per avere sempre un riferimento visivo.

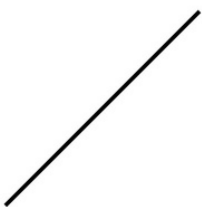

Nella terza pagina invece trovi un esercizio; il bambino o ragazzo dovrà ritagliare le attività ed incollarle nel riquadro in cui le ha svolte.

Anche questa pagina può essere plastificata per ripetere l'esercizio quante volte si vuole.

Le attività che trovi nella pagina di ritaglio sono solo degli esempi; crea, stampa e plastifica tutte le altre attività che pensi possano servirti per rendere l'esercizio più completo possibile.
