

il fiume

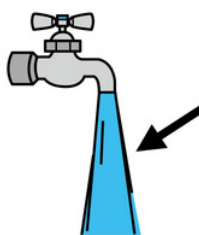

il fiume

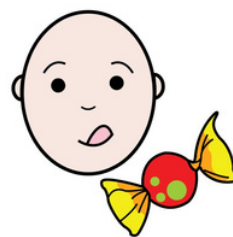

è

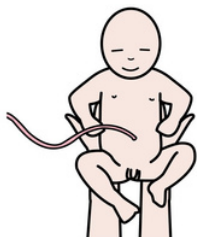

un corso d'acqua

dolce

nasce

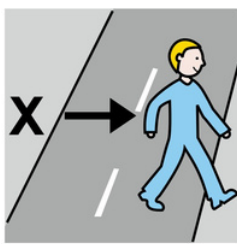

in montagna

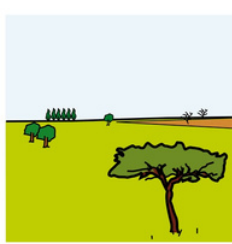

da una sorgente

attraversa

la pianura

e

arriva

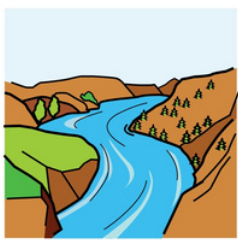

fino al mare

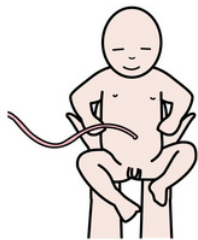

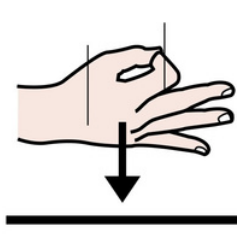

il fiume

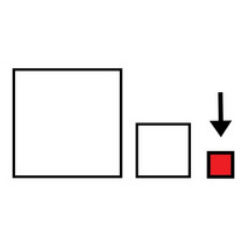

quando nasce

è

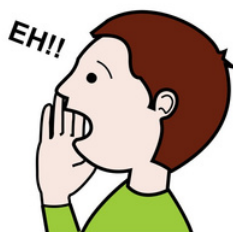

piccolo

e

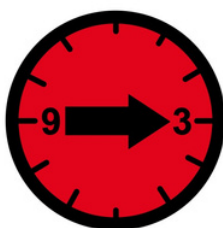

si chiama

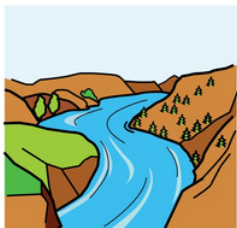

ruscello

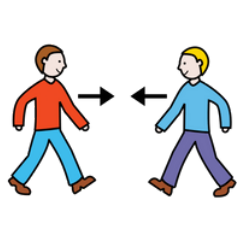

quando

il fiume

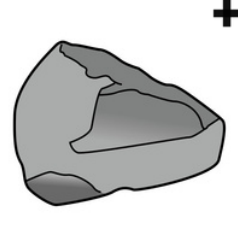

incontra

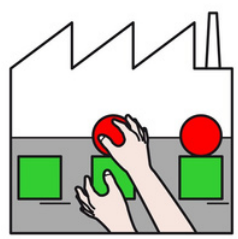

un salto

tra le rocce

si crea

una cascata

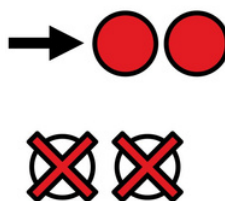

nel fiume

arrivano

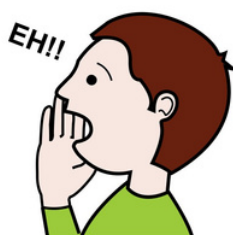

anche altri

fiumi

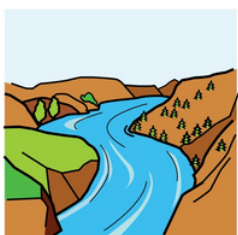

che si chiamano

affluenti

il fiume

finisce

nel mare
