Istruzioni:

Nella prima pagina, nei riquadri più piccoli, inserisci i numeri che vuoi addizionare (da ritagliare a pagina 4). Nei riquadri più grandi invece incolla tanti oggetti quanto riporta il numero che hai inserito precedentemente (da ritagliare a pagina 3).

Conta gli oggetti e fai la somma.

A pagina 2 puoi colorare tante dita quanto è il numero che viene dalla somma che hai fatto precedentemente. Invece di colorare puoi anche incollare sulle dita gli oggetti che trovi a pagina 3. Puoi plastificare l'esercizio per ripeterlo quante volte vuoi.
